

Irish Girl Guides CLG
Child Safeguarding Statement

1. Name of service being provided

Irish Girl Guides CLG

2. Nature of service and principles to safeguard children from harm

Irish Girl Guides CLG (IGG) is a youth-driven, dynamic organisation offering a varied and exciting programme for girls and young women aged 5-30, and opportunities for women of all ages. It is a self-governing, uniformed youth organisation led by volunteers and supported by national and regional staff.

Membership is voluntary and open to all who live their lives as female and accept the Guide Law and Promise. As a girl-only movement, girls are free to develop and express themselves in a safe, comfortable, supported setting. Our members learn new skills, grow in self-confidence, develop teamwork and leadership skills, experience new activities, and build lifelong friendships.

IGG values its members and has a programme aimed at the development of girls and young women in which all aspects of unsociable behaviour including bullying, harassment and abuse are unacceptable. Our Leaders are trained to implement our programme in which the needs of the girl are a priority.

IGG recognises that the welfare of our members is of paramount importance and has policies and procedures in place to safeguard the children in our care.

The policies and procedures outlined in this Child Safeguarding Statement apply to all staff (employees, students, trainees, all volunteers, contractors, and any other person) performing any role of function, or on behalf of this service.

3. Risk Assessment

The Children First Act 2015 requires organisations that are providers of relevant services to carry out an assessment of possible risk of harm to a child while availing of our service and to specify the procedures in place to manage these if they were to occur. Harm in this context is in relation to assault, ill-treatment, or neglect of the child in a manner that seriously affects or is likely to seriously affect the child's health, development or welfare, or sexual abuse of the child.

In line with this IGG has completed the required assessment and below is a list of possible risks identified and the procedures, policies, and guidelines in place for managing these.
